

## Ladder Locking Stainless Steel Cable Ties

The ladder style stainless steel cable ties use a ratchet style locking system, similar to a plastic cable tie.

These ties are very quick and easy to use, offering strong tensile results and excellent properties in a multitude of environments.

Available in 316 stainless steel, or polyester coated 316 stainless steel.

RoHS and Reach compliant.

- Ratchet style locking mechanism
- Quick and easy application
- Available with polyester coating to avoid corrosion

Material	316 Grade Stainless Steel
Coating	Polyester (Black)
Operating Temperature	-80°C to +538°C
Coating Operating Temperature	-50°C to +150°C

### Uncoated 316 Stainless Steel

Part no.	Length (mm)	Width (mm)	Max Bundle (mm)	Min Tensile (n)	Pack size
MAT8SS7	230	7	60	445	100
MAT12SS7	330	7	90	445	100
MAT16SS7	430	7	120	445	100
MAT24SS7	630	7	180	445	100

### Polyester Coated 316 Stainless Steel

Part no.	Length (mm)	Width (mm)	Max Bundle (mm)	Min Tensile (n)	Pack size
MAT8SSC7	230	7	60	445	100
MAT12SSC7	330	7	90	445	100
MAT16SSC7	430	7	120	445	100
MAT24SSC7	630	7	180	445	100
