

Self Adhesive Metal Cable Tie Base

An all purpose self adhesive cable tie base with a large adhesive base designed to hold heavier bundles of cables.

These bases are a simple and effective method of securing cable ties in virtually any situation, and are particularly useful in cramped conditions, on lightweight walls and in occupied premises.

RoHS and Reach compliant.

- Designed to hold heavier bundles
- Quick and easy application on smooth clean surfaces
- High quality adhesive

Material	White polyester coated steel
Adhesive	Acrylic on polyester foam
Operating Temperature	-40°C to +70°C
Application Temperature	+10°C to +40°C

Part no.	Length (mm)	Width (mm)	Max Tie Width (mm)	Max Load (kg)	Pack size
SACTC1	35	25	7	2.0	100
SACTC2	43	31	12	4.0	100
