

## Stainless Steel Cable Tie Base

These bases are suitable for the secure fixing of cables and hoses, in the most arduous of environments.

They provide a complete fixing when used in conjunction with the stainless steel MBT-S and MBT-H cable ties.

Heavy duty design, manufactured in 316 grade stainless steel. With a choice of three fixing holes, and suitable for cable ties up to 10mm wide.

RoHS and Reach compliant

- Suitable for use with cable ties up to 10mm wide
- Quick and easy to install
- Heavy duty 316 stainless steel design
